Main Screens and Features

1. Login Screen

- **Username Field:** Input for username or email. (*Max 30 chars*)
- **Password Field:** Secure input for password. (*Max 20 chars*)
- **Login Button:** Authenticate the user.
- **Forgot Password Link:** Recover account access.

Login Screen

What is it about?

The login screen allows users to securely access the Rice Sales Management App. Users must provide a username or email and password to authenticate their accounts. If users forget their password, they can click on a link to initiate the password recovery process.

Actions for users to take

Users can enter their username or email address in the designated input field and type their password into the secure input field. They can click the "Login" button to access the app or use the "Forgot Password" link if they need to reset their password.

Research finding applied to the design

Research shows that users prioritize security and quick access in management applications, so the design emphasizes a straightforward login process while maintaining account security with a password recovery option
